

2018 Athabasca Flying Career Fair

Saskatchewan Polytechnic provides hands on technical training at our campuses in Moose Jaw, Prince Albert, Regina and Saskatoon, and through extensive distance education opportunities. Our programs serve every economic and public service sector offering certificate, diploma, degree and apprenticeship training. Saskatchewan Polytechnic engages in applied research, drawing on faculty expertise to support innovation by employers, and providing students the opportunity to apply their skills to real world problems. (www.saskpolytech.ca)

Northlands College offers trades and technical courses as well as training for careers in health care and the mining sector. Northlands also offers university courses, including Bachelor of Social Work, Bachelor of Nursing.

Northlands College provides courses and programs in several campuses across northern Saskatchewan. Each campus offers specific programs and courses, with many programs offered in multiple locations. (www.trainnorth.ca)

Athabasca Basin Security has provided the Canadian mining industry's top companies with a full range of industrial security services in some of the country's most remote areas.

As an Aboriginal owned, award-winning security company, we're proud to create economic development for our shareholders and employment opportunities for people in the Athabasca Basin region and beyond. (www.basinsecurity.com)

Northern Resource Trucking is a limited partnership that was formed in 1986 and is comprised of twelve First Nations & Métis partners from communities throughout northern Saskatchewan, along with Trimac Transportation. The NRT Partnership was formed by northern people for northern people and continues to help build the northern economy.

Our fleet covers the immense distance between northern mine sites, hauling consumables, mining materials, liquid bulk & dry bulk commodities, and mining machinery for the companies that mine the rich resources of this region. (www.nrtlp.com)

The University of Saskatchewan (uSask) is a member of the U15, a group of the top Canadian research universities. Our main campus, well known for its beauty, is located in the heart of Saskatoon, Saskatchewan, Canada and is home to programs ranging from business, law, and arts and science to engineering, medicine and veterinary medicine, along with many others. Study at uSask is enhanced by our world-class facilities, including the Canadian Light Source, the Saskatchewan Centre for Cyclotron Sciences, the International Vaccine Centre, the Global Institute for Food Security, and the Global Institute for Water Security.

Due in part to the high quality of research infrastructure, uSask has six areas of special focus: Agriculture, energy and mineral resources, Indigenous Peoples, One Health (an integrated approach to human, animal and environmental health), Synchrotron Sciences, and Water Security.

In addition to having the opportunity to work and study at one of Canada's top research universities, our students, faculty, researchers and staff enjoy a high level of support typical of a smaller university, creating an environment that inspires collaboration, innovation and discovery.

With the option to study at locations across Saskatchewan, more than 24,000 people from around the world, including more than 2,900 self-declared Aboriginal students, study at uSask, and our more than 150,000 alumni are spread across the globe. Our graduates, recognized for their work ethic, resourceful nature and determination, will continue to build on our history of success to address the world's challenges now and in the future. (www.usask.ca)

Basin Development (ABD) is an investment company that is owned by the seven communities in the Athabasca Basin. Since being established in 2002, the company has worked towards the initial vision of the leadership and grown to include complete or partial ownership in companies providing a wide range of services. This includes industrial security, insurance, construction, electrical, security, drilling, aviation and more. The company's mission is to invest in sustainable businesses to benefit our shareholders and aims to build wealth for the Athabasca region by reinvesting profits. ABD is governed by a board of directors who are all Athabasca community members, and employs six people in Saskatoon and Prince Albert: CEO, Business Analyst, Director of Marketing & Communications, Controller, Office Manager, and Office Administrator. (www.athabascabasin.ca)

Points Athabasca is a civil, earthworks and industrial contracting company, and since 1999, we have built an impressive portfolio of high quality projects for satisfied clients. We believe in building beyond the project, and our slogan “Building Capacity” speaks to our high level of commitment to engaging and employing people in local communities.

Building Capacity is a key theme for our company and drives how we do business. We look for ways to go beyond job creation, to make a positive long-term impact that generates real wealth and economic benefits, and fully engages the local community in our business. (www.pointsathabasca.ca)

Athabasca Labour Services has been providing employment services to its clients since 2002. We provide a core workforce to Northern Saskatchewan’s mining and construction industry, as well as recruiting, developing, employing, and contracting an aboriginal workforce across Canada. Quite simply, we connect Aboriginal job-seekers with companies who are looking to hire. We accomplish this through building relationships with communities and employers to create opportunities for successful, sustainable aboriginal employment. (www.athabascalabourservices.ca)

Cameco is one of the world's largest uranium producers providing about 16% of the world's production from our tier-one operations in Canada and Kazakhstan. We hold about 458 million pounds of proven and probable reserves and extensive resources on three continents. Our exploration programs are focused on about one million hectares of land near our existing operations. We are also a leading provider of nuclear fuel processing services, supplying much of the world's reactor fleet with the fuel to generate one of the cleanest sources of electricity available today. (www.cameco.com)

Export is a skills Inventory and Vendor registration database that has been developed by the Saskatchewan First Nations Natural Resource Centre of Excellence.

Benefits of creating a profile at exportdata.com, students who provide their information by completing the Skills Inventory will have access to the following: Search and apply for available positions in our job database, view current training opportunities provided by the partner organizations to the Centre of Excellence, and download or print a version of your resume populated with the information you have provided. (www.exportdata.ca)

Orano Canada (Areva) and its predecessor companies have been exploring for uranium, developing uranium mines and producing uranium concentrate since 1964 — that's over 50 years! Throughout our history, we have primarily operated within northern Saskatchewan with several exploration projects located elsewhere in Canada, such as Alberta and Nunavut. (www.avevaresources.ca)

Team Drilling Provides industry-leading underground, surface and specialty drilling services. Bringing over 80 years of drilling experience to every project, we focus on building strong, team-based relationships with our clients, providing a safe and empowering workplace for our employees, adhering to the highest standards, continually striving for excellence, and developing innovative solutions that adapt to the industry's changing demands. (www.teamdrilling.com)

Keewatin Community Development Association - KCDA is a northern based non-profit organization long dedicated to supporting career, education, and business development in Northern Saskatchewan. (www.kcdc.ca)

Nuna Logistics – Nuna's vision is to be the premier northern provider of value adding mining and construction services while fostering sustainable Indigenous opportunities. The hiring and training of Indigenous people and local people has been a focus of Nuna's resulting in the Company having, among owners and contractors, the highest percentage of local residents working on projects in which Nuna is involved. Our ongoing education programs and training opportunities will allow the labour source not only to grow, but to advance to provide proficient operations managers in the future. Nuna's workforce at various times exceeds 600 people working on various projects in Canada's Remote North. Nuna has succeeded in employing in excess of 55% northern staff on its operations over the past several years. (www.nunalogistics.com)

Athabasca Health Authority is located in northern Saskatchewan, and provides health care services to five main communities in the north. The five communities that we service include the 2 First Nations Communities of Black Lake, and Fond Du Lac, as well as Stony Rapids, Uranium City, and Camsell Portage. (www.athabascahealth.ca)
